Status	S No	Remarks														
	1	Add proposal > the pproposal Items are not able to add ther is no optiuon for														
	2	same like contract too														
	3	in Client overview , The contact add option is not working . It must be worke														
	4	The client view must have this in this order		Overview	Projects	Tasks	Proposals	Estimates	invoices	payments	Statement	Contracts	Expenses	Files	Notes	Orders
	5	In Project														
		Add Project, Ther must be a option to show No Deadline for project (see wo														
		Inside the project , upon clicking the project the Invoice can not be added . It														
	6	In clint > Invoice is unable to create														
	7	In expense , Upload File option is needed as like RISE crm														
	8	In Clock in Clock out is not working														
	9	Task timer is needed as like RISE CRM														
	10	Task repeat function is not set as per Worksuite in ADD task form														
	11	In HR . Employees > Leave Quota were not set yet Needs same like worksui														
	12	In custom filed adding option , need to add one more option " enable in Filte														
		So addin g new custom field can be show in Filter of that table too														
	13	Reports section same as RISE crm														
	14	Email templates are wrongly configured presntly .														
		Follow same RISE crm														
		Add welcome email when the leads is added , and lead follow up remidner email (as like Worl
